

AUTOMATED TRANSFER WITH STORED VALUE FUND

ABSTRACT OF THE DISCLOSURE

According to the invention, a method for automatically transferring credit between a stored value fund and a handler using a wide-area computer network is disclosed. In one
5 step, automated transfer information is received at a server computer system from the wide-area computer network that is coupled to a user associated with the stored value fund. The handler chosen by a user for an automated transfer, the direction of the automated transfer with respect to the stored value fund and an amount for the automated transfer are
10 determined. The amount is automatically transferred between the stored value fund and the handler.
